

Recognition of Prior Learning Policy

This policy is designed to provide guidance regarding prior learning and achievement so that learners can achieve without duplicating any previous learning or assessments they may have undertaken.

Simon Scotting Tree Consultancy and Training encourages the use of recognition of prior learning (RPL) which applies to all training and qualifications.

Recognition of prior learning is a method of assessment that considers whether learners can demonstrate that they can meet assessment requirements through the knowledge, understanding or skills that they already possess.

RPL is achieved through discussion, questioning and production of current certification.
